

## **In the Right State of Mind**

When we were there, all we did was laugh and play  
And when tomorrow came, we'd just do the same again

Never used to have to worry 'bout anything, but the bully's on the playground  
The girls chase 'em all around town, but never bring us down

And now we have all these responsibilities  
It really seems to me that we've lost our abilities to use imagination how we should  
And if we could we would,  
But we need some help to guide us, to be what's inside us  
To make us free  
Enjoying nature as we please  
Listening to the soft wind rustling through those trees

And so I will sing how I feel  
Everything, hey seems so real  
I feel so small, but I know that I am tall  
It doesn't really matter much to me at all

You come up with a better way to spend your day  
Then dancing with me, acting crazy  
Baby you can give me a call  
I'd rather not worry 'bout hurrying and  
Jumping in too early and feeling that cold water's tide  
So I will take my time  
In the right state of mind

Floating all around, playing don't touch the ground  
Never needing a TV, all we need is some make believe

Playing games we used to play, the rocket scientist and his little gang  
He's got a sidekick named Bubbalu, who always seems to find the clue

Just to be free  
Enjoying nature as we please  
Listening to the soft wind rustling through those trees

And so I will sing how I feel  
Everything, hey it seems so real  
I feel so small, but I know that I am tall  
It doesn't really matter much to me at all

If you come up with a better way to spend your day  
Then dancing with me, acting crazy  
Baby you can give me a call  
I'd rather not worry 'bout hurrying and

Jumping in too early and feeling that cold water's tide  
So I will take my time  
In the right state of mind
