

Joker Dance

We get together and we're acting kind of goofy
You'd think we're smoking but that's just the way that we play

Acting, singing, dancing, we can do it all
You want into the club then brother you need to be called to do

The joker dance
Do the joker dance

Daring devils, being mellow, being crazy
Big ol' smiles go for miles, know what I mean

Jumping, trying, wave goodbye and do the swan dive
Never knowing how to go and living our lives

The joker dance
Do the joker dance

We'll do the joker dance
Do the joker dance

But it's all just a dance
Just shaking our funny feet

Cause we were goony loonies we had nothing to lose
We were crazy weirdie's that could do as we pleased
Hitting cruise control, living life the fullest
Using dumb excuses to be amusing
Dancing through

Idiotic, to chaotic, do the slop shot
I'm kind of wanting to be dancing like a robot

If you love it then become it, do it all day
Dancing through your life, there really is no other way

The joker dance
Do the joker dance
We'll do the joker dance
Do the joker dance

But it's all just a dance
Shaking our funny feet

Cause we were goony loonies we had nothing to lose

We were crazy weirdie's that could do as we pleased
Hitting cruise control, living life the fullest
Using dumb excuses to be amusing
Dancing through
