

## Never Ending Addiction

It's that time of night again, the poison's kicking in  
You look upon from the distance, the transformation begins

Now the beast is out and he's gonna shout  
And all you can do is hide

Don't you make a sound, don't you take a breath  
If you wanna chance to survive

Tired of being scared but you don't wanna run away  
You wanna face your fear, but you find that you're afraid

The whiskey on his breath is strong  
And he knows his life is going all wrong  
You try to help him, but he takes it out on everyone else  
The never ending addiction

He's got the devil's eyes but it's no surprise  
Cause you've seen it all before

And when ya try to hide he can smell your fear  
There's no safe place anymore

He'll hunt you down, drive you in the ground  
The beast has let out his rage

He's coming for you, he's thirsty for blood  
Full of anger and hate

Tired of being scared but you don't wanna run away  
You wanna face your fear, but you find that you're afraid

The whiskey on his breath is strong  
And he knows his life is going all wrong  
You try to help him, but he takes it out on everyone else  
The never ending addiction

So you think he's done, you think you've won  
You think you've got him controlled

But when he takes a sip, oh heaven forbid  
The beast takes his poor soul

The whiskey on his breath is strong  
And he knows his life is going all wrong  
You try to help him, but he takes it out on everyone else  
The never ending addiction  
The never ending  
The never ending  
The never ending addiction
